

Cloud One Seater LN1

&tradition

Product Type Armchair

Cloud is a series of lounge furniture designed by Luca Nichetto for &tradition. It includes a one-, two- and a three-seat sofa and a pouf, all of which combine a strong and defined weight-bearing structure with cushions and pillows ensuring maximum comfort. Cloud welcomes you in a friendly embrace while maintaining an elegant and structured external silhouette. Cloud's base feature no-sag springs and the pillows are made using a mix of HR foam and feathers, providing ultimate comfort. Its supporting structure — the back- and armrest segment and base — is made from bent plywood, while its frame and legs are produced in powder-coated steel, designed to match the colors of the upholstery. The base fabric is Kvadrat Sunniva, and comes in the colors black blue, volcano red, dessert stone, and ivory white. In addition, the pouf comes in three multicolored fabrics — Sonar and Pilot by Kvadrat — that complement the base colors. The pouf can be used as an ottoman or a freestanding seat.

"My idea was to combine the Italian and Danish traditions of making sofas. Cloud has the defined shape of the Danish design tradition and the soft and cosy pillows of the Italian heritage. The family is perfectly suited for contemporary living spaces, as it provides maximum comfort within relatively compact dimensions", says Nichetto.
