

# Bloom Pendant Small

## Product Type Pendant

The Bloom Pendant's super-elliptical form is inspired by the gentle dynamic flow of paper lanterns. Transparency and light create a glorious lit effect through the use of two contrasting materials – a finely perforated mesh core and frosted blown glass – which combine to project a soft-focus texture onto the inside of the shade.

At the same time, an unobstructed pool of light is projected downwards onto objects below. Bloom's distinct character is evident both in its on and off state, creating a versatile pendant light.
