

Nox Rechargeable Lamp

Astep

Product Type Table Lamp

Distinctive to Nox is its wireless charging system with induction technology, enabling this sophisticated and highly versatile lamp to be used unplugged. The luminaire is composed of four elements: a charging base, an anodized aluminum body containing the charging system, a hand-blown opaline glass diffuser and a simple handle.

Featuring a touch dimmer, Nox can provide ample light for reading and a cosy soft light when dimmed. Ideal as a bedside lamp, Nox can be picked up and carried to the balcony, and with its rich materials it also seems perfectly at home on the dinner table.
