

Catch Chair JH2

&tradition

Product Type

Dining Chair

In the 1980s, Jaime Hayon was interested in skating and graffiti culture, which had an impact on the playful, detailed, colorful and humorous elements in his design style.

Catch, Hayon's first contribution to &tradition's collection, is a chair that welcomes you with open arms. Its armrests extend from the shell like literal limbs, ready to embrace you as you sit down. In addition to being a witty personification, it is also an eye-catching piece of design. Serpentine lines give it a playful lightness that is counterbalanced by a sturdy, well-balanced base and legs that ensure maximum comfort. The shell offers comfort alongside great variability.

With multiple textile and leather upholstery options available from Kvadrat and CA-MO and three different options for the legs (Wooden legs, tube legs or swivel base), Catch can be adapted to almost any color scheme.
