

In Between Bar Stool SK9

&tradition

Product Type Stool

Merging man and machine by combining classic wood craftsmanship with compression moulding, Kallio imbues the In Between Bar Stool with some Nordic soul. Seen in a simple, timeless design that's kissing cousins to his In Between Chair and In Between Table, both made in conjunction with &tradition. "We love the mix of classic woodworking techniques and modern machinery," notes &tradition Brand Manager Martin Kornbek Hansen. "Intrinsic to our own concept is merging the past with the present. So this design, with its simplicity and beauty, is truly emblematic of our own angle on design.
