

Isole NN1

&tradition

Product Type Sofa

The Isole modular seating system is a simple, endearing design co-created by Japanese firm Nendo and Italian design studio Luca Nichetto, whose close connection defied the geographical distance between them.

A truly unique sofa concept enabling a variety of combinations and configurations, including versions with and without an “island” arm cushion.

Variations include a discrete round, square or rectangular side table that integrates beautifully with the overall aesthetics. The impression? Soft, inviting and endearing.

To get started on your custom sofa today, please [contact MATTER](#) directly to discuss the configuration that works best for you.
