

Bellevue Floor Lamp

&tradition

Product Type Floor Lamp

With the Bellevue Lamp, Danish architect and designer Arne Jacobsen embodies the minimalism of the Modernist Movement with the functionalism of Bauhaus. Viewed as the driving force behind Danish Modernism, Jacobsen's preference for graceful lines and simple, organic forms are readily recognizable in the Bellevue Lamp.

The re-launch of this iconic lamp involves a return to the original Bellevue shape in three styles: the floor lamp, desk lamp and wall lamp. To enhance their appeal in a contemporary setting are new colors and a mix of materials: satin polished brass, black with brass, and versions mixing ivory or grey beige with brass.
