

Cousy

Arflex

Product Type

sofa

Following his minimalist and rigorous stylistic line, Vincent Van Duysen has signed a new system of seating, called Cousy, which has been created in various versions: sofa in three different sizes, armchair, pouf and chaise lounge. The solid beechwood structure is covered with differentiated density polyurethane foam and fibre cover. The backrest and the rigid and small-sized armrests welcome large cushions stuffed with polyurethane foam and feather. Fully removable cover, except for leather version.
