

Gomito Lounge

SEM

Product Type Lounge Chair

The SEM 2019 collection is also enriched with chairs designed by the young Belgian collective vormen, composed of Edouard Devriendt, Emile Duyck, Leon Duyck and Jochen Schamelhout. Gomito Chair and Gomito Lounge are the names of the armchairs made with a thin and elegant hand-welded steel frame, whose curvature supports the precious leather, folded and sewn to act as a backrest and at the same time as an armrest. Both seats are available in red, blue or black and with Kvadrat fabric cushion upholstery. The Gomito chair and armchair are designed to become a tailor-made product in which the full grain leather of the backrest is destined over time to soften and accommodate the anatomy of the body.

Dimensions

W19,6" x D18,1" x H29,5"

W50cm x D46,1cm x H75cm
