

## Bellevue AJ10

AndTradition

**Product Type** Table Lamp

With the Bellevue Lamp, Danish architect and designer Arne Jacobsen embodies the minimalism of the Modernist Movement with the functionalism of Bauhaus. Viewed as the driving force behind Danish Modernism, Jacobsen's preference for graceful lines and simple, organic forms are readily recognisable in the Bellevue lamp. The re-launch of this iconic lamp involves a return to the original Bellevue shape in four styles: the floor, wall, plug-in, and table lamp.
