**Product Type**

Table Lamp

The Fulcrum Lamp is the modern re-expression of an archetype. Its free formed silhouette and re-positionable shade allow it to take on new forms from every angle, rendering it equally at home on an antique side table or plywood bench. Fulcrum's shade can be rotated with the gentle sweep of a finger, raising the light output from a soft glow to full brightness as the shade pivots through a sequence of cantilevered compositions. Executed with a Japanese paper shade and either a sand-cast bronze or cork base, the Fulcrum Lamp uses its classically rooted two-part format to explore a rich dialect of material and mass.

Dimensions W11,8" x D6,9
