

## Beam Table

Established & Sons

**Product Type** Desk

Based on an everyday icon—the I-beam girder—the Beam Table is designed to last a lifetime.

Merging premium design with an industrial aesthetic and an undeniably strong presence, the table is equally at home in an artisan's workshop, a gallery, a family home or a live-work space. The rolled steel i-beams that form the structure of the table are coated in a fine-textured powder coat in either jet black or red oxide and sit on adjustable round feet that help protect the ground beneath. Optional lockable swivel-casters allow the table to be easily moved, helping it adapt to many different uses. Solid-lipped table tops are available in oak veneer, a high-pressure laminate in black or in black Fenix, a heat-and-scratch resistant, high-end surface material.
