

Model 1095
Astep

Product Type Floor Lamp

This floor lamp, designed in 1968, is slender, graceful and intriguing in its disproportions between head and base. The design of the small reflective cup is strongly influenced by the new halogen light bulb, which Gino Sarfatti explored and celebrated in Model 1095 from both a functional and a dimensional perspective. Offering indirect light in a subtle design, the luminaire is made up of a tubular aluminum stem available in three different heights and painted slate grey. The small reflective cup with its thin shape is made of white-painted aluminium, and so is the base with the appealing soft shape and neat collar. In the re-issue, the base covers the electronic devices instead of a transformer, and besides LED lighting, the luminaire has also been upgraded with a water cooling system patented by Flos. All come with a black stem and white base. *Matter rewires some Astep products to meet US Standards when required. UL listing available upon request at an additional cost.*

Dimensions

66.9"

7.8" x 66.9"
20cm x 170cm
