

Model 237/1

Astep

Product Type

Sconce

The Le Sfere collection is a multifaceted, open-minded luminaire system, suitable for illuminating all kinds of spaces with its ambient moonlight, from a modest corridor to exclusive private and commercial settings.

The collection was gradually expanded to fit larger commissioned projects. Among them is the famous Teatro Regio in Turin, Italy, where Le Sfere can still be seen in a variety of compositions, including cascades and columns, that emphasise the genius and beauty of the system.

The Le Sfere collection is the largest product family by Gino Sarfatti with models that have developed over time, from the first single sphere, Model 237, to the iconic twenty-four-sphere chandelier. All created from the same fundamental principle: a beautiful interpretation of the perfect luminous sphere.

Matter rewires some Astep products to meet US Standards when required. UL listing available upon request at an additional cost.

Dimensions

W 5,5" x D 7,9" x H 5,9"

W 14cm x D 20,3cm x H 15cm
