

Model 548 Table Lamp

Astep

Product Type Table Lamp

The table lamp designed in 1951 is a study in balance and light reflection through a screen, a recurring theme in Gino Sarfatti's work. Model 548 provides both reflected and diffused light due to the adjustable spotlight that is directed up towards a reflecting screen.

The large diffuser in orange, blue or white methacrylate provides a highly sophisticated light effect and is an essential part of the illusion and the play with perception. The spotlight in white painted aluminium is mounted on a tubular stem in polished or burnished brass, while a small brass bar at the base serves as a counterweight in the beautiful balancing act of the individual elements of Model 548.

In the re-issue, the original incandescent bulb has been replaced by an LED source, and an optical dimmer switch has been integrated discreetly into the original design.

Matter rewires some Astep products to meet US Standards when required. UL listing available upon request at an additional cost.

Dimensions

W19,6" x H19,6"

W50cm x H50cm

Light Source

LED, 15 watt, 2700K, 730 lm, CRI 90
