

Tela Dining Chair

Wentz

Product Type Dining Chair

The Tela lounge chair has given rise to a new version of the dining chair. Like its initial version, the backrest weave is inspired by the classic cane woven pattern of the midcentury furniture. The plot design has been recreated in a larger scale made with cotton thread for more comfort and durability. The chair has a lower backrest and can also be used to compose with the armchair in a living room or lounge. The design seeks maximum comfort with a minimal structure, light aesthetics and a tropical flair.
