

Bowl Coffee Table

Wentz

**Product Type**

Coffee Table

Just like other products in the collection, The Bowl Table explores the sensation of movement in a static object. The ceramic bowl seems to act on the thin metal table top, which is curved, as if gravity was part of the design. These concepts are exalted to bring a natural and casual feeling to the interiors, exploring the barriers between what is produced by man and nature. Not only the shape is reduced to the essential minimal, as it suggests an environment with more free space, since the table top has the minimum depth needed to support everyday use objects such as glasses, plates and books. The ceramic bowl offers a simple solution for objects that are often scattered on the coffee tables, leaving the environment even cleaner and lighter.

Dimensions

W 65" x D 17.7" x H 11.8", Table top height 9.8"

W 165cm x D 45cm x H 30cm x Table top height 25cm
