

Cana Wall Lamp

Wentz

Product Type Sconce

Cana Lamp is the result of recent studies on simple and organic forms, exploring the boundaries between the natural and artificial. The curve, inspired by sugar cane stalks, mixed with delicate details and LED technology, creates an interesting contrast between organic forms and contemporary design. The subtle indirect light allows it to be used in any room as complementary lighting. Also, the smaller version can be used over nightstands, sofas and consoles, while the larger one can be used in entrances and hallways as a sculptural piece.
