

## Surface Table

Established & Sons

### Product Type

Dining Table

Bringing together the best of furniture and Formula 1 racing car design, the super-slim 2mm edge and long span of the Surface Table is made possible by cutting-edge engineering and carbon fibre composite materials. A true engineering accomplishment, the incredible SURFACE TABLE uses state-of-the-art auto-sport technology to exploit the inherent rigidity and strength of carbon fibre. The 2mm thick edge and long span defies the eye with its improbable lightness and solidity. Radius corners, round legs, domed feet and rounded edges accentuate the slimness and seamlessness of John Barnard's design.

### Dimensions

#### Size 240

L94,5" x D39,4" x H29,5"

L240cm x D100,76cm x H74,9cm

#### Size 300

L118,1" x D39,4" x H29,5"

L299cm x D100cm x H74,9cm
