

Daze Low Table

Tacchini

Product Type Low Table

Architectural shapes inspired this collection of low tables with futuristic lines by Dutch design studio Truly Truly. Made of bent and welded sheets of metal, the Daze low tables are hand colored, one by one, so that the intensity of the paint changes as it spills out of the cuts with different effects. Artisan craftsmanship with the aid of high tech, adds a note of unpredictability to the precise geometrics of the shapes and materials. The most important feature of this tables is that the second painting, the "shade" is done by hand, so each time you will have a different result of intensity and direction of the paint.
