

## Pier Chair

Resident

**Product Type** Chair

The Pier Chair is inspired by the thick and straight cylindrical pillars of pier structures. Made entirely from solid oak, the dining chair is composed by using only mortise and tenon joints, allowing the wood fibres to run continuously throughout, giving the piece sustained durability.

Pier's solid oak seat and backrest are precisely carved by CNC to create a comfortable seating position. Easily stackable, the Pier Chair has a strong yet refined presence that suits a range of domestic and commercial interiors.

**Dimensions**

W18.1" x D16.3" x H29.9"

W46cm x D41.5cm x H76cm
