

Heidi Stacking

Established & Sons

Product Type Stool

A powder-coated tubular steel leg adds a robust, and competitively-priced, stackable stool to the Heidi range. The redesigned base is paired with a new seat made from vacuum formed thermoplastic and Baydur, an injection-moulded resin – the gloss UV protected finish is tough and suitable for outdoor use.

A mix of modernity, nostalgia and utilitarian form, Heidi is a fun stool of a simple and sturdy construction which takes its inspiration from the classic tractor seat. When developing the stool, Wrong focused on comfort and functionality creating a cantilever base that flexes slightly with movement so that it feels very natural to sit on – a responsive movement not common in most stools which tend to be stiff.

Dimensions

SH500

H 55cm x L 43cm x D 45cm / SH 50cm

H 21,65" x L 16,93" x D 17,72" / SH 19,69"

SH650

H 70cm x L 43cm x D 45cm / SH 65cm

H 27,56" x L 16,93" x D 17,72" / SH 25,59"

SH760

H 81cm x L 43cm x D 45cm / SH 76cm

H 31,89" x L 16,93" x D 17,72" / SH 29,92"
