

Mauro Chair

Established & Sons

Product Type Dining Chair

The Mauro Chair is a hardworking, irrepressibly stylish, stackable, timber chair by Italian master designer Mauro Pasquinelli. The chair embodies futurist aesthetic ambitions during that defining era and blends seamlessly into interiors that mix contemporary and mid-century design

The stackable Mauro Chair was first created as a prototype in 1976 by Italian designer Mauro Pasquinelli, but was too ambitious a design for commercial production at the time and could not be made available to the public. Now, Established & Sons is bringing this elegant timber chair to the market for the first time, using advanced CNC technology to create a seat that will stand the test of time. Built in Manzano in northern Italy, a global hub for high-quality chair fabrication, the Mauro Chair's sophisticated, understated lines create a strong presence. Available in the finest European oak or solid ash with a wood or leather seat, the design's focus on detail and practicality makes it ideal in a wide variety of settings.

Dimensions

L20.2" x D19.3" x H30", Seat Height 17.7"

L51,5cm x D49cm x H77cm, Seat Height 45cm
