

Agnes Cascade - 20 Lights

Roll & Hill

Product Type Chandelier

Agnes is an elegant design, featuring a modular structure which can be assembled in configurations starting from a small, 6-light chandelier to a large, 20-light chandelier or even larger sizes.

Agnes, in its ideal state, would be a very large fixture. You could fill up a whole ceiling," says the designer. Articulated joints allow for the bulbs to be rotated and arranged in a multitude of ways. The bulbs can be completely vertical, which is church-like and formal. When the angles change, it becomes more whimsical.
