

Pebble Dash Neolith Stool

Jeff Martin

Product Type Stool

Jeff Martin is a sculptor and furniture designer based in Vancouver, Canada. The Pebble Dash Neolith is an altar-like stool that aims to explore both contemporary and ancient stone masonry techniques. Pebble Dash concrete is found in highway medians. The stools fit comfortably in a wide range of applications from corporate HQ's, fireside revelry, to accent tables, or a place to strip off your wetsuit. Suitable for both indoor and outdoor environments. *Made in Canada.*

Dimensions Ø 16
