

Bistrotstuhl Plywood seat

Wiener GTV Design

Product Type Dining Chair

Bistrotstuhl is an extremely comfortable and ergonomic chair which stands out for its sculpted anthropomorphic backrest that evokes the triangular shape of human shoulder blades. The backrest detail is inspired by the other pieces added by Coates in 2016, but in Bistrotstuhl this detail is exasperated: the chair's organic lines, in harmony with its refined proportions, literally envelop whoever sits in it, with no solution for continuity, from the backrest to the armrests. This elegant piece conceived for homes with a strong designer look but also suitable for contract spaces, features a serpentine pattern under the seat of the chair.

Dimensions

W22,8" x D19,6" x H30,3"

W58cm x D50cm x H77cm
