

Caféstuhl Plywood seat

Wiener GTV Design

Product Type Dining Chair

In succession with the refined sinuosity of the LEHNSTUHL lounge chair and the BODYSTUHL chair, Nigel Coates presents the CAFÉSTUHL chair, a new original reinterpretation with a contemporary twist of the Thonet tradition. Extremely comfortable and ergonomic, it is characterized by the sculptural backrest with an anthropomorphic character that recalls the typical triangular shape of the shoulder blades. Designed to furnish domestic environments with a strong character and ideal for contract spaces, this elegant proposal incorporates the characteristic serpentine processing of the underseat, an element common to all the pieces signed by the English designer for GTV.
