

Duet

Wiener GTV Design

Product Type Low Table

Transactions between curves, vectors and materials embody the DUET collection of coffee tables by Cristian Mohaded, consisting of three different version. The bent beechwood legs with a square section are elegantly paired with the plated steel bases, creating a play on geometry inspired by the company's traditional lines and curves. The rectangular top, available in glass fumé and *Emperador Brown* marble, gives the product a contemporary feel, making it suitable for any type of environment.
