

N. 14

Wiener GTV Design

Product Type

Dining Chair

The great classic. The item that is absolutely the most famous and most sold in the history of furniture. Designed by Michael Thonet in 1860, the No. 14 chair immediately became known as the bistro chair. Minimalist both in the chosen material and the fact that just six elements go into forming the entire item, the No. 14 is the result of almost twenty years of research. Simple, versatile and ever contemporary, it is considered the first true example of industrial design. The structure is formed from carefully steam bent solid beech wood. The backrest and back legs are formed out of a single piece of wood. Various different seats available.
