

NYNY Sideboard

Wiener GTV Design

Product Type Storage

NYNY sideboard is a horizontal wood and woven cane sideboard to be fixed to the wall thanks to the metal structure with satin brass finish. It is characterised by the strength of Storamilano's creative language, a balanced encounter between the creativity of designers and the language of architects. Distinctively asserting its modernity, GTV has adopted its archetypes, wood and woven cane, to design NYNY, a family of storage units with a strong emotional dimension capable of imposing itself in space as the absolute protagonist of the scene. In addition to the sideboard, the totemic vertical storage unit and the chest of drawers are part of the family.

Dimensions

W106,6" x D17,7" x H29,5"

W271cm x D45cm x H75cm
