

## Ruhering

Wiener GTV Design

**Product Type**

Coat rack

RUHERING is the result of Wiener GTV Design meeting the eclectic, artistic mind of Franco Mello. It is an original multi-functional piece specifically conceived to furnish lounges and public spaces. It merges and re-interprets two of the Thonet style's most iconic pieces: chair No.1 – designed by Michael Thonet in 1850 and to this day the archetype of the universally recognised chair – which in RUHERING is de-structured and freed from its backrest; and the Kleiderständer clothes hanger, a 1904 design which takes centre stage in this exclusive creation, allowing RUHERING to perform two different functions. In the catalogue, RUHERING appears in lacquered black; however, this multi-chair is customisable for single projects and is the perfect example of WIENER GTV DESIGN's ability to meet the requirements of the world of contract design.

**Dimensions**

W53,1" x D53,1" x H72,8"

W135cm x D135cm x H185cm
