

Single Curve Barstool & Counter

Wiener GTV Design

Product Type Stool

The refined elegance of Nendo's Japanese minimalism abstracts the brand's stylistic features to reinterpret them in a contemporary key. A rigorous and at the same time poetic approach that points to the essence of the design investigation where steam bent wood declines a single structural detail, capable of focusing attention on each element of the SINGLE CURVE COLLECTION: coffee table in 3 dimensions and stool in the version with three or four legs (barstool and counter).
