

Sugiloo

Wiener GTV Design

Product Type Dining Chair

The rigorous style of Michael Anastassiades defines the new SUGILOO bent wood chair with plywood or upholstered seat, proposed with and without wooden backrest. A strongly contemporary proposal in its pure and essential form: the light structure is given by the encounter of curves that, like the stroke of a pencil on the sheet, draw seat, backrest and armrests. A new refined minimalist tribute by the well-known designer to the DNA of Gebrüder Thonet Vienna with which he shares the love for the detail.
