

Vienna 144 Hocker

Wiener GTV Design

Product Type Stool

This barstool was originally designed in 1908 by August Thonet. It is a classic for public seating, with solid, functional and elegant characteristics. The structure is in bent beech wood. The ring element, made from a single piece, is a construction device that has been inserted to add stability to the feet. Available in two heights, bar stool (Barhocker) and stool (Hocker). The seat is made from beech plywood with relief work, can be in woven cane or upholstered in leather or fabric. Chrome-plated footrests.
