

Drip HW59

&Tradition

Product Type Table

Drip, a highly versatile table made from 80% recycled aluminium, has been designed specifically with the contract market in mind. Knowing that contract clientele require their pieces to be flexible, Welling devised a table system that would adapt to different uses. Arriving as a knock-down that can be easily assembled within a few minutes, Drip's base comes in three options: black, bronzed, and a polished aluminium offered only for the dining table. Its table top is available in Fenix laminate, linoleum, and an oak or walnut veneer. Drip is available as a dining table with a height of 74cm, or as a high table that stands at either 95cm or 105cm. Both dining and high table come in several sizes.

Dimensions

W32" x D76" x H29,6"

W80cm x D190cm x H74cm

Weight

32,2 kg

Gliders

Plastic gliders are installed as standard.

Castors available upon request
