

Pigreco Chair

Tacchini

Product Type

Dining Chair

The Pigreco chair is the first product designed by Tobia Scarpa, conceived in 1959 as a graduation project at the end of his studies in architecture at the University of Venice. The chair is the result of the designer's early youthful intuitions. He wanted to create an object that could convey a "sense of space", representing the concept of dynamism in a product.

Dimensions

L21.6" x P15/9" x H25"

L55,1cm x P40,5cm x H64cm
