

Windows Of Bo Bardi - Desk / Dining table

Destroyers Builders

Product Type Desk

Building further on the series Windows of Bo Bardi, the Desk in tulipwood embraces the color variations that are peculiar in this type of wood; diverse green tones alternate with the lighter nuances. This unexpected color variations are reinforced by the shapes of the desk. The legs, which all have a different size give a new composition on sitting. The origin of inspiration are the organic shaped windows in a brutalist concrete building; SESC Pompeia (Sao Paulo) by Italian-Brazilian architect Lina bo Bardi. This gesture of Lina bo Bardi, is bringing some wilderness in the heavy architecture. Within the Windows of Bo Bardi Desk, a balance between the fluid and the regularity is persued.

Dimensions

W80,31" x D40,94" x H29,5"

W204cm x D104cm x H75cm
