Product Type

Lighting

Throughout his life, the sky served as a muse for lighting master Gino Sarfatti. He was fascinated by the perfect light emitted by the Moon, and one of Gino Sarfatti's most brilliant designs is inspired by the natural poetry of the luminous satellite. In 1959, Le Sfere was launched in a solar system of its own, revolving around a single luminous sphere. Le Sfere features a simple, yet elegant principle in which a blown opaline glass sphere is held in place by a graphic ring. A refined embrace that lends the luminaire a graphic expression and brings forth its distinctive aesthetic.

Dimensions

W 31cm x D 23cm x H 15cm

W 12,20" x D 9,06" x H 5,91"

Diffuser diameter

Ø 14cm

Ø 5,51"

Weight

1.60kg

Mains Voltage

220V AC

Light Source

2 x E14 LED 4.5W Recommended

60W Maximum

Bulbs Not Included

UPON ORDERING THIS DESIGN

Specify any details needed to place order.

These should be selection items on the website.
