

## Model 566

Astep

### Product Type

Table Lamp

Designed in 1956, the Model 566 embodies Gino Sarfatti's reductive process, resulting in a balanced elemental form. The luminaire stands poised, with implied forward motion, lightening the contrasting body tube which holds the characteristic Cornalux bulb. The body tube is cleverly supported by a simple rubber ring that provides the perfect amount of friction for infinite adjustability. The base, originally made of cast-iron, is now made from an alloy of aluminium, magnesium, and copper, which provides better resistance to corrosion, produces no air pollution during production, and is recyclable. Punctuating the design, a familiar push-button on/off switch is incorporated in the base, providing a satisfying click.

The choice of bulb for this luminaire enables the strict minimalistic configuration since the bulb itself incorporates a reflector and a means of orientation. With half-silvered glass, coupled with a bayonet fitting, the Cornalux bulb has been out of production for some years. Through a special production for the Model 566, Astep brings this classic back to life with modern energy-efficient and long-lasting LED technology.

### Dimensions

W5,5" x D14,7" x H19,9"

W14cm x D37,4cm x H50,6cm

### Weight

2,10 kg

### Cable Length

1500mm

### Light Source

1 x B22 LED 8W (8W Max)

700lm

2700K

Non-Dimmable Bulb Included

### UPON ORDERING THIS DESIGN
