

Etage Shelf - Small

Valerie Objects

Product Type

Shelving

Linde Freya Tangelder, the woman behind destroyers/builders, drew inspiration for ETAGE in the architecture of the Danish architect Per Kirkeby and the project "House V_H" of the Belgian agency Dhoore Vanweert. Constructions that show plenty of curvy structures and laterally cut surfaces. "Both the rear surface and the shelves follow a particular curve which ensures the allure of a skeletal frame. The frame of an organic sculpture."

Dimensions

W15,6" x D5" x H29,1"

W39,8cm x 12,7cm x H74cm
