

Victoria 3 Seater Sofa

Tacchini

Product Type Sofa

Lebanese design duo David/Nicolas are behind this modular system comprising armchairs, corner sofas, chaises longues and ottomans offering luxurious comfort. A tubular supporting frame – available in polished chrome, matt black chrome and black lacquer – serves as the product's base, giving it a floating appearance and creating a sort of crown at the back. A series of small tables with mirrored tops completes the line; they can be combined with the other elements to create endless compositions. Thanks to its modular nature, Victoria can be arranged and reconfigured as desired, depending on the space where it is placed. This feature makes it particularly suitable for use in the contract sector.
