

## Tensa chair Upholstered

RIES

**Product Type** Chair

Inspired by tensile structures, the most distinctive feature of the Tensa collection is the geometry of its surfaces, which in all cases emulate being stretched from its four ends.

This subtle gesture allows one to adopt the same system and formal language that is then applied to each piece in the collection.

The Tensa chair is the first piece we developed, and perhaps at the same time the most relevant due to the complexity of designing a chair perse.

Light, comfortable and elegant, the Tensa chair was conceived to be able to adapt easily to different environments, and we like to think that it can perform well both in home interiors and on terraces in public spaces. It's details and the wide variety of colors in which it is available make it an ideal piece for any occasion.

**Dimensions**

W15.74" x L19.48" x H32.28"

W39,9cm x L49,47cm x H81,9cm

**Weight**

15,22 kg
