

Orno high stool

RIES

Product Type Stool

The Orno stool is part of the Orno collection, our first to be entirely made of hardwood.

All pieces were designed under a same construction system that consists of basic structural elements –columns, beams, support planes– and whose joints are resolved in such a way that the final piece is read as a whole and not as a summation of parts. The rounding of the outer corners ends by softening the entire collection both tactile and visually.

Dimensions

W17.32" x L17.32" x H33.85"

W43,99cm x L43,99cm x H85,9cm

UPON ORDERING THIS DESIGN
