

38.1Vc Copper

Bocci

Product Type Chandelier

The 38.1Vc is a single 38V pendant fixture with a shallow white powder coated canopy designed to fit over an existing junction box in which the power supply is installed. The canopy is 116mm (4.5") in diameter and 7mm (0.3") deep, which creates a subtle profile that minimizes the impact in the application surface. 38V is a variant of the original 38 series where a large glass sphere is blown with a multitude of haphazard interior cavities, which intersect and collide in unpredictable ways. 38V is smaller, lighter and suspended with coaxial cables. The interior cavities can be filled with plants or left empty.. Standard 38V are made with clear glass exterior spheres and milk white interior lamp holder cavities.

Dimensions

Ø4.5" x H10'

Ø11,6cm x H300cm

Lamping

1.5w LED or 10w xenon

Coax

fixed lengths. 3000mm (10') standard / up to 9900mm (32') maximum
