

87s / Sp

Bocci

Product Type

87s is a surface mounted light fixture with a 2.2" (55mm) diameter mounting plate designed to be mounted on walls. Please note, the 87s does not attach directly to a junction box and requires the power supply (driver/transformer) to be remote mounted. The minimum amount of power supplies to power the ordered quantity of fixtures will be provided unless otherwise specified.

87sp has a paintable 4.5" (115mm) diameter mounting plate designed to be mounted on walls, directly to a standard junction box (not included). The power supply is integrally mounted. Each pendant comes with either a 1.5-watt LED lamp and power supplies as specified above.
