

Mil
Jacchini**Product Type** Table

The story of two elements, which rub against each other until they fit together perfectly. Monica Förster revisits the classic coffee tables with central support by creating a breaking point in the traditionally flat and smooth surface of the wooden top, which almost seems to become a stone mill with the characteristic central hole in which the marble leg is inserted. These coffee tables are available in two sizes and color variants, with base in Breccia Bresciana or Fior di Pesco Carsico and top in solid open-pore ash, stained walnut or dark gray.
