

Trapolino Table

Tacchini

Product Type Low Table

An important wooden base, an almost suspended marble top and a central leg that runs along its entire length, supporting it. Three elements, a meeting of proportions and balances that can be reconfigured in a multitude of cantilevered tables with an asymmetrical design, in which once can see the shapes of a trampoline or the appearance of the famous Fallingwater house by Frank Lloyd Wright. The tables are available in two sizes and color variants, both with an open-pore solid ash base in order to reveal the grain and intensity of this noble material. Available in a [wide 102 cm format](#) with a lower height.
