

## Anni Rug

**Product Type** 

Natural tones intertwine with different motifs, leaving room for small colored details that catch the eye with distant Bauhaus references. Contrasts of patterns, textures and colors take shape from the overlapping of the rugs, enhancing the manual skills and craftsmanship of the manifacturers who intertwined them.

The large, short-haired mats are available in striped or checked motif, light or dark colors. The small rug, with longer pile, takes up the colored detail of the mat on which it is superimposed. Both sizes are made of natural wool, hand knotted in Nepal, with yellow or blue colored details.
