

## Palo Pendant

Wentz

### Product Type      Pendant Light

Palo Pendant comes from the desire to create a pendant source of light that can give comfort to the dining table. From the horizontality of the table, it comes from a unique trace, something like a suspended brushstroke. The connection with the ceiling is given at the center of the piece, causing the tips to fall off. This curve expresses a vegetable malleability, as if the structure was inspired by bamboo.
