

Dobra Sofa - Module S

Wentz

Product Type Modular System (Sofa)

Dobra ("Fold" in Portuguese) was created from a natural gesture: the folding of a soft material. In each piece, a strength that respects the foam's density is applied. It's as if a big cushion was curved and paused in time. The original WE—KNIT — made from recycled PET bottles —combines a tactile experience, with high resistance and sustainability.

This is one of the possible modules to build your Dobra Sofa, but it could also be used individually as a lounge chair.

Dimensions:

78x110x70cm / 30¾" x 43¾" x 27½" Seat height: 40cm / 15¾"

Further customization and WE-KNIT upholstery available

UPON ORDERING THIS DESIGN
